Forged Metal Accessories (Cut Pole Adaptor)

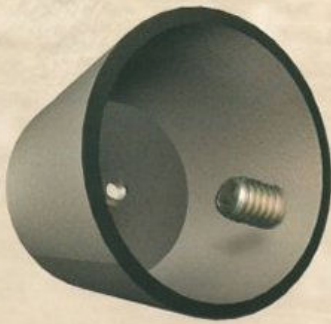

K72235

Cut Pole Adaptor

1.75" L x 1.5" D

Finishes: 01, 02, 03, 04

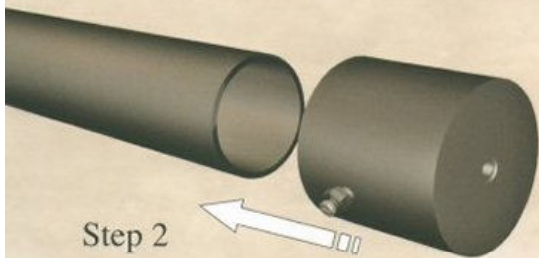

Shown in 03-Black

Item K72235, cut pole adaptor must be used when you want to mount a finial without a collar onto a "CUT" smooth round pole

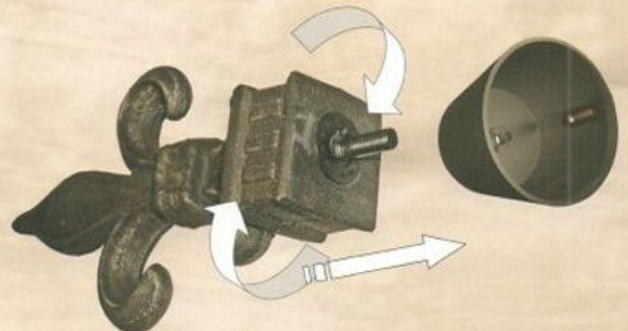

When a smooth round pole gets cut to a specific length by an installer**, this eliminates the screw hole at the end of the pole. The installer will need to replace the newly cut pole hole opening with item K72235, in order to screw on a finial. The finials which will need this adaptor are shown below:

Item K72235, is then placed over the cut end of the pole, resulting in the ability to screw on a finial.

The finial is then screwed into item K72235
